Tuesday 31st May 2016

Term 2
Issue 2
Week 4

Getting along!

Pinyali show respect

Showing respect as visitors...... and to visitors!
Learning For The Future

Learning For The Future is our school motto.

To us this means:

* using critical reflection and questioning in our learning.

Ishlani asked - How many legs do caterpillars have?

Toby asked - I wonder if the two bears got along?

Megha asked - Why do butterflies have coloured wings?

* Setting goals for our learning.

My goal for reading is to be my best and read all the time—L’Tahlia

My goal for maths is to learn all about numbers—Charlie

My goal in sport is to play basketball at the highest level—Jamal

Reconciliation Week
30th May—3rd June

Working together is always a focus for our school community, however during this time we have extra activities and many lessons focussed on raising awareness.

These people form the core of our Aboriginal Education Team.

Nana Glenys
Aunty Gloria
Roy Wilson
Aunty Trish
Stephanie Bates

Being at School every day is important.

I learn new and different things every day—Emily

I make new friends and have fun learning—Liam

Being at School every day helps me to do my best.

School Colours
Any combination of Black, Gold and Green. Wear them every day with pride.
It has been an exciting term of learning at Fraser Park Preschool-7 School. Week Five is Reconciliation Week, which means that all classes will be doing different activities to help celebrate the theme of working together. Di Grigg will be working with classes to help promote this theme and will be doing a range of different activities. Teachers will also be using the Persona Doll kits to focus on Aboriginal Perspectives across the curriculum. On Friday we will be celebrating with a free BBQ lunch for all students, provided by Roy and Rosie.

At Fraser Park Preschool-7 School we use our School Values of Respect, Caring, Enthusiasm and Fun to help teach the students how to achieve their best at school and get along with each other. These values are an important part of our work and can be used to help students refocus or restore relationships if they have had a problem. It is important that we respect each other and our school, care for our things and each other, use enthusiasm to do our best and make school a FUN place for everyone!

Cheers
Russell

In Book Study lessons, all classes use ‘transformation boards’ to help with reading, spelling and writing lessons. Sentences from the book being studied can be written up in large writing to help students read and identify individual words. Here are photos of Wanyi kids reading and playing reading games from a sentence in The Very Hungry Caterpillar, by Eric Carle.

Kristen Baur
Literacy Focus Teacher

In Term 2, Week 4 we had the Pulyeri Family Day. Thankyou to all the families whose participation made this a fun day. The Children enjoyed showing their work sample books and the other work they have displayed around Pulyeri to their families. If you were unable to make it this Term, come in and have a look at your child’s work. I would also like to especially thank Roy, Rosie, Tyrell, Jamain and Jacob who made salads and ran the BBQ.

Cheers,
Brad.

Learning Together at Fraser Park is a fun place for families with children aged 0-4.
Programs offered include; supported playgroups, SACE programs, pre-walker groups, home visits and parenting programs.
Our playgroups are all about: Playing, Talking, Singing, Learning and having fun. Learning together at SACE offers young mothers the opportunity to return to study. A crèche is provided.
New families are always welcome.

Adele Greer
